Resident Adviser (RA) or Community Assistant (CA)

RAs/CAs are students who are Residential Life staff members living in the community. RAs/CAs can be among the most helpful and resourceful people you will get to know. Carefully selected because of their leadership and interpersonal skills, positive attitudes and sense of commitment, RAs/CAs have many roles and responsibilities. They help to build a sense of community in your residence hall. They serve as a resource for information and tips on adjusting to college life, conduct safety and security checks, and ensure that policies are followed.

Your RA/CA is your main point of contact. They will make an intentional effort to connect with you regularly over the year. You can talk with them about a variety of issues, and they will connect you with other staff and UW resources if needed.

RA/CA on Duty

An RA/CA is always on duty every night from 5 p.m.–8 a.m. They can be reached by calling 206-543-1000.

The Program Supervisor or Resident Director (RD)

The RAs/CAs in Blakeley Village and Laurel Village report to a full-time professional called a Program Supervisor. In Stevens Court the RAs/CAs report to an RD. Your Program Supervisor or RD's Office is located in the Blakeley Village Community Center or Stevens Court Residential Life Office (RLO). They are great resources. Please feel free to contact them with any questions or concerns.
Residential Life staff organize and present a wide variety of programs and events designed especially for residents of Family Housing. These programs and events offer families ongoing opportunities to interact with each other, learn about different cultures, become familiar with campus resources, celebrate seasons and cultural traditions, increase awareness around issues of safety and security, and much more. Most programs and events are provided by Residential Life at no additional cost for participants. The following are some examples of programs and events offered to Family Housing residents in the past:

- Cooking classes
- Fall Fiesta (carnival-style event)
- Financial seminars for students
- Movie nights
- Operation Husky Smiles (in cooperation with the UW School of Dentistry)
- Potluck dinners
- Scrapbooking
- Summer Enrichment Program (summer day camp for school-age children)
- Talent shows
- Weekly playgroups for children
- Yoga instruction

To learn more about current and upcoming offerings, please visit your RLO or look for announcements in the monthly Family Housing calendar.
The Community Centers at Blakeley Village, Laurel Village and Stevens Court are available for residents' use and activities sponsored by the Residential Life staff. Each Community Center has a meeting space, a kitchenette and a piano. If you are interested in reserving the Community Center, make reservations at least 48 hours in advance by contacting the RLO by phone, email or in person. Facilities may not be used for commercial purposes.

**Equipment Checkout**

You may check out assorted equipment from the RLO. The following items are generally available for checkout:

- Brooms
- Dustpans
- Handcarts
- Vacuum Cleaners
- Videos
COMMUNITY STANDARDS

Living on campus at the UW is a unique opportunity and one that may significantly enhance your overall educational experience academically, socially and developmentally. To create and maintain an environment conducive to your success in these areas, Community Standards are in place to guide behavior within the residential community. It is the responsibility of each member of our community to be familiar with and abide by the Community Standards as well as to share in building and maintaining a respectful and productive living and learning environment for one another.

To ensure your understanding of the rights and responsibilities of every resident and guest of UW housing, please familiarize yourself with the terms and conditions of your respective housing agreement. Your understanding and cooperation will help to make the residential experience positive and enriching for yourself as well as your fellow residents.

Common topics residents have questions about can be answered in the agreement such as:
- Guests
- What is allowed in the residence halls
- Important dates
- Charges
- Harassment
- Alcohol and drug use
- Conduct
- Information about the Conduct Process can be found on our website.

Listed below are several guiding documents relevant to students wanting to know more about the Residential Life Conduct Process:

- Residential Life Conduct Process Guide (PDF)
- Conduct FAQ Handout (PDF)
- Formal Hearing Process (PDF)
- Appeals Form (PDF)
HFS Desk Services operates several front desks that provide a centralized location to serve and accommodate a variety of needs for those living in the residence halls. The front desks are a convenient centralized location for residents, guests and visitors, providing a range of services.

</table>

*Please note that front desk hours are subject to change during certain times of the year (i.e., holidays, Finals Weeks, break periods and Move-in/Move-out days). Contact or visit your building’s front desk to learn the operating hours during those times.

**Lost and Found**

Items found inside the residence halls are brought to the residence hall front desks and are held at the front desks for 30 days. When valuable items, such as Husky Cards, credit/debit cards and keys, are dropped off at the front desks, Desk Services staff will try to contact the owner about the found item(s). Items that are not claimed within 30 days are taken to the HUB Lost and Found.

**Husky Card Deposits**

Any student, staff or faculty member of the UW can deposit funds to their Husky Card Account at any of the residence hall front desks with cash or check only. Funds can also be added to Husky Card Accounts with debit and credit cards on the UW website at MyUW.

**Check-In/Checkout Services**

Residents arriving or departing UW housing, or changing rooms, are required to check-in and checkout of their accommodation at their residence hall front desk during business hours. This requirement is subject to change if residents are checking in or out during high-volume peak times.
PACKAGES AND LETTER MAIL

Addressing Mail and Packages

While you are a resident on campus you may have mail and packages delivered to you. Items for Stevens Court residents will be delivered to the Lander Desk and processed accordingly. Letter mail will be delivered to your mailbox and packages (or oversized letters) will be scanned into the package-tracking software used by Desk Services and kept at your front desk for you to pick up. Mail for Blakeley Village and Laurel Village residents is handled by the U.S. Postal Service, and packages are delivered by carriers directly to the apartments.

In order to properly direct mail and packages, your items must be addressed correctly and include:

- Your name (your legal name or the name in the preferred nickname field in your My HFS profile)
- Your assigned room number
- The name of your residence hall

Please be aware that items without the above information will be delayed and may be returned to the sender.

Standard Package Process

Packages will be delivered by the carriers directly to the Lander Desk. Packages are typically processed by front desk staff within 24 hours of receipt, with exceptions during high-volume periods (e.g., autumn quarter Move-in, Black Friday, Cyber Monday).

Once packages arrive at the front desks, staff will scan each package into the package-tracking software used by Desk Services. As packages are scanned, notifications are sent to your UW email. These email notifications contain pertinent information such as time and date of arrival, tracking number, location the item was scanned, etc.

This email notification serves two functions: it alerts you that a package has arrived, and it lets you know that your package has been processed and is ready for pickup. If you attempt to pick up a package before receiving the email notification from Desk Services, your package may not be ready for pickup, and you will need to return once it has been processed.

You will receive multiple notifications for each package depending on the current status of your items. You will receive notifications when:

- Your item is first processed by Desk Services staff
- Your item has been waiting several days for pickup
- Your item has been returned because it was not claimed within seven days
- Your item is claimed (This email is for your records and confirms you picked up your item.)

Packages delivered to the front desks will be held up to seven days, after which they will be returned to the sender. If you unable to pick up a package within seven days, please see the Proxy Package Pickup section below to find out how to have someone else claim your package(s) on your behalf.

During certain times of the year, such as Winter Break and Spring Break, packages will not be returned to sender if not claimed after seven days. If you have questions, please contact your front desk.

Package Pickup Process

To pick up your package, bring your Husky Card or other photo ID to your front desk and present your ID to the Desk Services Representative. They will retrieve your package and have you sign for delivery.

Residents picking up packages at the Lander Desk should use the resident package kiosk to start the package-retrieval process.

The package kiosk is located on the wall just past the Lander Desk, near the resident mailboxes. Use the kiosk every time you are coming to pick up packages. Using the kiosk to claim packages helps ensure a faster pickup time. Follow the instructions posted on the wall above the kiosk, and then proceed to the line for the front desk.
PROXY PACKAGE PICKUP

During your stay in the residence halls there may be times when you are unable to retrieve packages within the seven days allowed for pickup. During these periods you may arrange for someone else to pick up any packages that have arrived for you at your front desk. To authorize someone else to pick up your packages, you must complete the proxy package pickup form.

For this form you will need your name, your student ID number, the name of your proxy, and any/all tracking numbers for each package you wish to release to your proxy. You must include specific tracking numbers for each package you wish to be picked up. Front desk staff will not release your package(s) unless the form is completed correctly.

Sending Out Packages

Packages may be dropped off by residents at the front desk to be picked up by any of our regular carriers: UPS, FedEx, DHL, USPS and OnTrac. Packages dropped off at the front desk for pickup must be properly packaged* and must have the proper paperwork/postage affixed to them. In some instances the carrier may be bringing the label/call tag. In these cases, the front desk staff will accept the package along with the resident’s information, so the package can be returned to the resident should the shipping label fail to arrive.

The front desks do not track outgoing packages once they have been picked up by the carrier, and you will not receive notification that an outgoing package has been picked up by the carrier. If you wish to check the status of an outgoing package you can contact your front desk, and you can check the specific carrier’s website.

*All packages being left at the front desk must be secured with appropriate materials. Please check with your specific carrier to determine what types of packing materials (including tape types) are allowed. Please note that the front desks do not supply shipping or packaging materials, including tape.

Receiving Letter Mail

Letter mail that has been correctly addressed will be delivered by front desk staff into your assigned mailbox within 24 hours of receipt. You will not receive notification that letter mail has been placed in your mailbox. It is your responsibility to check your mailbox regularly. Please be aware that letter mail is typically not trackable in any way unless sent via trackable services such as USPS Priority, Express Mail and certified mail.

Sending Out Letter Mail from the Front Desk

Letters can be dropped off at the front desk or dropped into the outgoing letter box located near the resident mailboxes for USPS pickup*. Outgoing letter mail must be sealed in an envelope, and the appropriate postage or indicia (permit imprint) must be affixed or printed on the envelope. The front desk staff does not have the tools to weigh and measure your mail or to determine the required amount of postage.

*Due to USPS requirements, some letter mail that needs special handling (e.g., Express Mail, certified mail, international claims form) may need to be taken to the post office by the sender.

BUILDING ACCESS AND KEYS

Your Husky Card
Your Husky Card is the property of the UW and is for your exclusive use. It has your dining account money on it, in addition to any other funds that you deposit onto it. Always carry your Husky Card, and treat it as you would cash or a key.

Unfortunately, if you misplace or lose your Husky Card there is nothing to prevent others from using it. Report a missing Husky Card right away by contacting the Husky Card Office or visit them on the ground floor of the Odegard Undergraduate Library. You can also suspend a lost Husky Card at the Online Card Office. Replacement charges may apply; see the Incidental Charges section for current pricing. Your residence hall front desk can provide you with a temporary building access card to use until your Husky Card is found or replaced.

Your Keys
The set of keys you received at check-in are assigned uniquely to you but are considered UW property. Avoid switching keys with anyone, and turn in your keys at your residence hall’s front desk or your designated checkout location when you move out or move to a different space.

Use your keys for entering and securing your residential space. Always carry your keys (and Husky Card), and lock your room or apartment doors whenever you exit.

LOCKOUTS AND LOST KEYS
If you are locked out of your bedroom, apartment or building, you may temporarily check out a key or building access card.

- During business hours, go to your front desk.
- If you are locked out after the front desk is closed, call the RA/CA on duty.

There is a $10 fee for any lockout assistance outside front desk hours or any time a Residential Life staff member is required to unlock a door.

The lockout key must be returned within 24–72 hours. Failure to return the key within 72 hours may result you being charged for a lock change.

Charges may apply to rekey your room if your keys are lost or otherwise unreturnable. See the Incidental Charges section for current pricing; charges are placed on your housing account. Charges to replace a bent or broken key may apply as well. If your keys are stolen, contact the UWPD at 206-685-UWPD (8973)/TTY 206-543-3323 to file a report and receive a case number. Rekeys due to stolen keys won’t result in a charge if we can document your case number.

Since residence hall keys are considered high security, the UW Lock Shop will not replace any key unless we can provide them with a bent or broken key in return for its replacement. This means that when any key is lost, stolen or otherwise unaccounted for, the whole key series must be rekeyed. Missing keys cannot be replaced. Rekey or key replacement costs may be charged to your housing account.
HEALTH AND WELLNESS RESOURCES

The UW provides many campus resources to promote student success and personal health and wellness. Please refer to the information below to find out more about these valuable resources.

Health and Wellness
The Division of Student Life Office of Health and Wellness provides students with support around the social, emotional, intellectual, physical, financial and spiritual dimensions of life. Visit UW Health and Wellness to find the tools and resources available to students.

Emotional Wellness
Behavioral health promotion and suicide prevention are among the UW's top priorities. With support and proper treatment, students struggling with these issues can be successful through their college years and beyond. There are a variety of on-campus resources available to help with these issues.

Hall Health Primary and Special Care Clinics
Hall Health aids the academic success of UW students and the well-being of patients through a commitment to high-quality, patient-centered health care. Hall Health is dedicated to improving and maintaining physical and mental health, with a focus on health promotion and the appropriate use of health services. Visit Hall Health to learn more.

Counseling Center
The Counseling Center is staffed by psychologists and mental health counselors who provide developmentally based counseling, assessment and crisis-intervention services to currently enrolled UW students.
DIVERSITY IN FAMILY HOUSING

You have decided to join a new community, one that very much values the diversity of its members. With more than 8,000 students, the on-campus residential community boasts an array of values, beliefs, perspectives and abilities. This rich diversity is one of the reasons living in residence is such a valuable and worthwhile experience.

HFS strives to create an environment of mutual respect. In addition to offering many programs and services that support this goal, HFS works collaboratively with numerous offices on campus to advise and support our work and our students, including the Office of Minority Affairs & Diversity (OMA&D), the Ethnic Cultural Center and Theatre (ECC), the UW Women’s Center, Hillel at the UW, the Office of International Education, the Q Center, the Foundation for International Understanding Through Students (FIUTS), and Disability Resources for Students (DRS).

Whether it is through our collaboration with other offices or special event programming in the residential communities, HFS staff strive to ensure that residents get to know each other and gain a better understanding of others. We ask that you do your part by respecting others’ traditions and beliefs. We set this expectation for you with the following statement:

Everyone who chooses to live in or visit our residential communities has their own beliefs and must understand that acts that denigrate an individual’s national origin, race, gender, gender expression, sexual orientation, heritage, culture, religion, disability or age have no place in our community. Strive to understand the individual differences of those around you, especially your neighbors. As you engage in daily activities and interactions, challenge yourself to learn from others. Give others the respect and tolerance that you desire.

If you become aware of any situation or incident where this community standard of mutual respect has been violated, please discuss it with a Residential Life staff member. You may wish to talk with a staff member about the following circumstances: homophobic comments, ethnic or racial slurs, any action or situation involving physical or mental abuse, threats to a person’s health or welfare, and offensive displays and pranks. Though some of these acts may be subtle in nature, it is important that staff members are made aware so they can appropriately address the situation. All communications will be handled with sensitivity and discretion.

Setting this standard for our residential community and having high expectations for our residents ensures that students can have a productive, meaningful and personally rewarding experience while living on campus.
BIAS-RELATED INCIDENTS

Bias-related conduct is behavior that by intent, action and/or outcome may offend, harm or threaten to harm a person or group. Such behavior is usually motivated by prejudice toward a person or group because of factors such as race, religion, ethnicity, disability, national origin, age, gender or sexual orientation.

Some bias-related conduct comes in the form of speech that can appear to be offensive, derogatory or demeaning. Although these and other expressions betray the UW's ideal of a campus community committed to honor and respect, the First Amendment of the U.S. Constitution may protect expressions of this nature. Regardless of whether or not a specific situation is punishable, acts of bias should be appropriately addressed. In the absence of a disciplinary procedure, an educational response may be warranted.

If you have experienced a bias-related incident, the best thing that you can do is to report it. Talking about what happened can be difficult, but it is our hope that you will contact someone who is prepared to assist you. Your willingness to identify and discuss an incident may help you and, at the same time, prevent other students from experiencing similar treatment. Some incidents of bias-related conduct may be addressed through formal disciplinary action. Others might be subject to protection under the provision of the First Amendment of the U.S. Constitution. All such incidents should be addressed in an educational manner.

Talking with your RA/CA and RD is a great first step to report possible bias-related incidents.

The following UW offices offer support and confidential assistance:
Community Standards and Student Conduct
Office of the Vice President and Vice Provost for Student Life
University Ombudsman
University Complaint, Investigation and Resolution Office

All members of the UW community should be familiar with the UW's policies regarding discrimination and harassment.
SAFETY IS EVERYONE’S RESPONSIBILITY

UW employees work together to help promote the safety and security of the campus community. However, being on an urban campus means each member of the community needs be aware of safety and security risks and how to minimize them. The following information describes many of the programs, policies and services that exist to help promote your safety and well-being, both on and off campus.

Your Responsibilities

- In case of fire or other emergency, know your building’s evacuation procedures (located on the back of your door).
- Secure doors and windows when you are alone, when you are asleep at night, and when you leave the room or apartment—even if it’s just for a minute.
- Look through the peephole to make sure it is someone you know before answering the door.
- Keep outside doors closed, even if you need to go in and out frequently.
- Only let people you know into residential buildings.
- Immediately report any obscene, harassing or threatening phone calls, emails and messages and any suspicious circumstances or activity to your RA/CA or the UWPD at 911.
- Keep outside doors closed, even if you need to go in and out frequently.
- Keep your Husky Card secure. For most residents it serves as your residence hall key or your checkbook, and, for all residents, your identity. Don’t lose it or loan it.
- Take appropriate steps to secure and insure personal property.
- Register your bicycle and electronic devices with the UWPD.
- Know where to go for help when you need it.
- Be cautious when walking outside after dark. Travel in groups whenever possible or call to request a Husky NightWalk security guard to accompany you to your destination (within a one-mile radius of campus).

- Abide by the regulations stated in the applicable housing agreement.
- In case of an earthquake: DROP, COVER and HOLD. Do not evacuate unless instructed to do so.
- Keep in touch. Always let someone know where you are going and when you will return.
- Keep your emergency contact information up-to-date via the Student Profile page.

Privacy and Safety

HFS will not, under any circumstances, release room or apartment numbers to any person including friends, relatives and parents without written authorization from the student. Although this policy may seem inconvenient at times, it promotes residents’ safety and a more secure living environment. We encourage you to make sure your family and friends have your address, room number and telephone number, and that they are aware of the UW housing guest policy.

PERSONAL PROPERTY

The UW is not responsible for theft or damage to residents’ property in the residence halls. To protect your belongings, you are encouraged to:

- Use an engraver to put your name on valuables such as stereos and computers. This will make them less desirable to thieves and easier to trace if stolen.
- Register your bicycle and electronics (such as your computer, phone and MP3 player) with the UWPD. If an item is stolen, registration can aid in recovery. Please consult the UWPD website for more information.
- Make a record of the description, serial numbers and identifying characteristics of your valuables. Photos can also serve as useful records.
- Get renters insurance for your possessions or make sure you are covered through your family’s insurance.
- Report all thefts to the UWPD immediately at 206-685-UWPD (8973)/TTY 206-543-3323.
- Protect yourself against the illegal or fraudulent use of your identity. Visit the UWPD website for detailed information about how to protect your personal information.
Residential Life Staff

Residential Life staff provide safety information to the residence hall and apartment communities during the first floor meetings of the quarter, through personal interactions, and by facilitating awareness programming that encourages students to make smart decisions regarding their personal safety. Do not hesitate to contact your RA/CA or RD about any safety concerns you may have. RAs/CAs are on duty after hours to address safety issues. RDs are on duty after hours on business days and 24 hours a day on weekends and holidays. All HFS staff members wear official photo IDs when in the residential areas in order to help you identify HFS staff from others who may be in the community.

UW Police Department

The UWPD patrols the community each night and works directly with the on-duty Residential Life staff. UWPD Officers are fully commissioned and have the same authority as other law enforcement officers.

Residential Life staff work closely with UWPD Crime Prevention Unit Officers to provide programs and resources for residents to raise awareness regarding safety and security issues. Learn more about safety and security by visiting the UWPD website.

For emergency situations requiring police, medical or firefighter response, call 911.

For nonemergency assistance, call the UWPD at 206-685-UWPD (8973)/TTY 206-543-3323.

Husky NightWalk

Husky NightWalk provides uniformed escorts for students walking to and from buildings, from parking lots and within close proximity of the campus. Husky NightWalk operates from 6 p.m.—2 a.m., seven days a week except UW holidays. Visit their website to learn more about their hours and call 206-685-WALK (9255) to take advantage of this service.

NightRide Shuttle

If you stay on campus after dark take the NightRide Shuttle home. The NightRide Shuttle takes you from campus right to your front door (within a mile of campus). For more information visit their website.

SafeCampus

SafeCampus works with all students, faculty and staff as a resource for individuals who have safety concerns due to relationship violence, stalking, harassment, intimidation, cyberstalking, interpersonal conflicts at school or work, and suicidal thoughts. They also receive calls where there isn’t a safety concern yet, but the witnessed behavior is strange, erratic, alarming or just plain doesn’t feel right. For individuals who have a gut feeling that something is off, or if a situation is escalating or someone may be in danger, SafeCampus is just a call away.
EMERGENCY PREPAREDNESS

Preparing for an emergency is everyone’s responsibility. Please read the following information carefully. For additional information about campus-wide emergency response to earthquakes, severe storms, fires, hazardous materials incidents, terrorism and extreme heat, visit UW Emergency Management.

Emergency Kit

Family housing residents are highly encouraged to put together and maintain an emergency kit with enough supplies to accommodate the needs of their entire family for 72 hours.

Fire Safety

Fire safety is of the utmost importance in community living. To prevent fires, be mindful of what is prohibited in our facilities and always watch your food when cooking. Your agreement articulates these restrictions and guidelines.

EVACUATION PROCEDURES

On the back of main apartment doors you will find the evacuation route for your unit. Each building has an evacuation assembly point. If the building goes into alarm, exit immediately and quickly. Treat all alarms as real. When you exit the building, Residential Life staff will guide you to the evacuation assembly point. Do not reenter the building until you are given permission by police, fire officials or the Residential Life staff. The silencing of the alarm does not indicate that the building is safe to reenter.

For more information on fire safety visit the main UW Environmental Health and Safety page, as well as their Residence Hall Fire Safety page.

HFS conducts quarterly evacuation drills in accordance Seattle Fire Code Section 405. One evacuation drill per building or area is conducted each quarter.

FIRE SAFETY EVACUATION PROCEDURES FOR STUDENTS WITH DISABILITIES

RAs/CAs and the RD in each residence hall building know the room locations of students who have identified themselves as having a disability. Each student with a disability is responsible for meeting with their RD to review their personal evacuation procedure. In consultation with DRS, the RD and student will create an evacuation plan specific to their room and building (see the UW brochure Emergency Evacuation for Persons with Disabilities).

FIRE LANES

The wide sidewalks at Blakeley Village and Laurel Village and around Stevens Court are designated as fire lanes. These are reserved for emergency-vehicle access only. Do not drive or park on these lanes. If you unlawfully use the fire lanes, you may be ticketed or fined by the Seattle Fire Department or the UWPD.

SMOKE DETECTORS

If your smoke detector malfunctions, contact your residence hall front desk or the RA/CA on duty to report the problem immediately. Do not disconnect the smoke detector. The maintenance staff will enter rooms/apartments periodically to check smoke detectors. If a smoke detector needs repair as a result of your tampering, you will be billed for the cost of repair, and you may be subject to disciplinary action.

CARBON MONOXIDE DETECTORS

Carbon monoxide (CO) is a gas that is produced by fuel-burning appliances, fireplaces and vehicles that can cause illness and death in some situations, particularly within enclosed indoor areas. CO cannot be seen or smelled, and the most common causes of CO poisoning are the indoor use of charcoal or gas grills. While the risk of CO poisoning in HFS facilities is low, CO detectors have been installed in residential areas in compliance with the Seattle Fire Code, and it is important to treat all alarm activations seriously.

The type of detector installed varies based on the type of building. Typically, apartments with central fire alarms have in-unit CO detectors integrated into the system, and other apartments have plug-in or battery-operated CO detectors in the apartment unit. Regardless of the type, if the detector or system alarms, you should evacuate the apartment or building and contact the RA/CA on duty or the UWPD so that a maintenance team can be dispatched to investigate.
American Red Cross Safe and Well Program

The American Red Cross Safe and Well program provides a resource for students and families to connect with one another following any kind of major event that might affect the UW campus. The UW has provided some information on this program, as well as links to other emergency resources.

Should disaster strike, we encourage you to report your status on the Safe and Well website. Your family and friends will be able to search for you by name to find out your status, location and other information you choose to provide.

OUT-OF-AREA CONTACT

If you are separated from loved ones when disasters strike, you will immediately wonder how and where they are. The stress of the event may make it difficult to remember even routine information like phone numbers. Consequently, we recommend that every person have an out-of-area contact card in a wallet, purse or backpack at all times. It may be difficult to make local calls because of the number of people trying to make calls at the same time. The local systems may be overloaded. However, you may be able to make a long distance call.

Ask a family friend or relative who lives at least 100 miles away from you to be your out-of-area contact.

After a disaster, all family members call this person to tell him/her how they are and to find out how other members are. You create a communication circle through a third party.

You may be able to send a text message to your loved ones on your phone. Keep it short!

Earthquake Safety

The state of Washington is in a seismic activity zone that could be subject to a major earthquake. Preparing for an earthquake is everyone’s responsibility. Please visit the UW Emergency Management page for information about preparing for an earthquake.

Active Shooter Preparedness

HFS considers your safety to be the highest priority, and we need you to be a partner in this effort. Unfortunately, active shooter situations have happened on college campuses. For your safety, please visit the UWPD website for active shooter emergency procedures.
Disability Services and Accommodations
HFS works closely with UW Disability Resource for Students (DRS). If you are in need of a permanent or temporary accommodation reach out directly to DRS.

Apartment Temperature
Blakeley Village and Laurel Village: Thermostat programming instructions may be located on the cover flap or your thermostat, depending on the model. For heating system assistance, please call the Facilities Services and Planning Office at 206-543-4017.

Stevens Court: Stevens Court has central heating. Each apartment has its own furnace. There is a thermostat in the living room area that controls the heat for the apartment. There are also registers in each apartment that can be opened to control the airflow.

Blakeley Village and Laurel Village Electric Service
Blakeley Village and Laurel Village residents are responsible for paying for electric service. Your Seattle City Light account will be set up by a Student Services Representative when you sign your agreement. Contact Seattle City Light if you would like to inquire about assistance programs.

Countertop Care
Please be cautious when placing hot items directly on the countertops. This causes significant burn damage that you will be held responsible for financially. Please place a cloth or trivet underneath hot items before placing them on the countertop.

Maintaining Healthy Air Quality in Your Apartment
Good air quality in your room promotes good health and a cleaner, safer living environment. The air quality in your apartment is highly dependent upon good circulation and the regular exchange of air. Excessive or trapped moisture in a room can lead to mildew and/or mold problems, allergens and possible damage to the room. Moisture is generated during activities such as cooking, bathing, doing laundry and watering plants. The Washington State Department of Health has a page on mold prevention. Please help maintain your living environment by following these suggestions:

- Leave a window open, even slightly during the winter months, for at least 20 minutes a day. When weather permits, open windows fully on opposite sides of the apartment, if applicable, to allow for a good exchange of air.
- Leave a window open, even slightly, when boiling water or doing any cooking in your room. If you live in an apartment, turn on the exhaust fan over the stove.
- Curtains or blinds should be left open whenever possible to allow air circulation over the window. Sunlight inhibits the growth of moisture. If you notice moisture buildup on the windows or walls, dry it off with towels.
- Leave interior doors (i.e., bathroom, room) open whenever possible for better air circulation.
- If you notice any signs of mildew, mold or moisture buildup, please submit a work order.
- Use a clothes dryer to dry your laundry. Hanging wet clothes in your room can significantly increase moisture levels in the room.
- Allow space between furniture or personal items and walls. Furniture or personal items that are placed too close to walls limit the airflow and may encourage the growth of mildew.
- Use the bathroom exhaust fan when taking a shower or bath. In our new West Campus buildings the fan should come on automatically.
- If you are experiencing severe moisture problems place a work order.
Air Conditioners

The UW is located in a temperate climate affected by the cool waters of Puget Sound. On occasion, however, periods of hot weather may negatively impact the comfort level of indoor spaces including your apartment. If you choose to purchase or install any type of air conditioner, please refer to the following guidelines and policies to help ensure safe and efficient operation of the equipment.

Portable, freestanding air conditioner units not exceeding 12,000 BTU are recommended as they often require no special installation and may be transported from room to room. For maximum efficiency and care for the environment, the unit should be ENERGY STAR compliant. Power requirements must not exceed 10 amps and 125 volts. Unit must meet UL safety standards and be installed in accordance with the manufacturer’s instructions.

Installation of any equipment should not interfere with or damage any permanent building surface or require removing windows. Any damage or alteration to UW property will result in repair charges and possible further UW action.

Outside Areas in Blakeley Village and Laurel Village

You are responsible for keeping the outdoor area of your apartment free of garbage, boxes, furniture or any other items. Stairwells and landings must be kept clear of all items.

Supplemental storage structures, constructed fences and television antennas are not permitted. Television satellite receivers are only permitted with advance written permission from the Residential Life Office. Outside areas may be subject to inspection by Residential Life staff. Examples of acceptable items to store outside at Blakeley Village and Laurel Village include:

• Bicycles
• Outdoor furniture
• Potted plants

Laundry

Community laundry rooms with energy- and water-efficient washers and dryers are located in every building. Blakeley Village and Laurel Village apartments can accommodate personally owned laundry machines. Instructions for using the washers and dryers are posted. Weekends are usually the busiest times in the laundry rooms, so plan accordingly. All laundry rooms and equipment should be left clean. You can check the availability and status of washers and dryers in real time by visiting Maytag Connect 360™. The UW is not responsible for clothing or other articles left unattended in laundry facilities.

To report a broken machine, please go online to FixLaundry, use the FixLaundry app or call 1-800-342-5932. Please take note of the six-digit machine code to use in your request for service.

Washers and dryers are $1.50 per load. Additional drying time may be purchased for 25 cents. All laundry machines operate using the Husky Card Account and do not take coins.

TV and Internet in Blakeley Village and Laurel Village

Residents are responsible for setting up their own Internet and cable through their preferred provider.
TV AND INTERNET IN STEVENS COURT

An Ethernet port in your room allows you to use your computer to access the UW campus network. In order to use the Ethernet port in your room, you need to provide your own computer, Ethernet cable and adapter to complete your connection. Rooms that have fewer ports than residents are equipped with an Ethernet hub to allow two computers to connect to one port. You may also set up your own wireless network in your room with your own Wi-Fi router.

HuskyTV
HuskyTV is a satellite package arranged through the UW. If you have a cable-ready TV, all you need is a coaxial cable to hook up to your HuskyTV lineup. You must also program your TV to receive the cable signal. If you have any problems with access, please contact UW-IT at help@u.washington.edu or 206-221-5000 or call the Facilities Services and Planning Office at 206-543-4017.

Computing and Internet Access
It is convenient and easy to access the Internet in your room through the UW network. All resident rooms contain an Ethernet port for direct hardwire access and many of the residence halls have all-building wireless (Wi-Fi), making it easy to connect laptops, gaming consoles and mobile devices. Students receive a UW NetID, which is necessary to access the UW network and set up a UW email account.

ETHERNET
In order to use the Ethernet port in your room, you need to provide your own computer, Ethernet cable and adapter to complete your connection. Rooms that have fewer ports than residents are equipped with an Ethernet hub to allow two computers to connect to one port.

WIRELESS CONNECTION (WI-FI)
For a complete list of all Wi-Fi available areas on campus, including the residence halls, view the UW Wi-Fi locations map. The name of the wireless network is University of Washington, the same as it is for other locations on campus. You may not install your own wireless router or network in your room or apartment.

If you have questions or problems getting connected to the UW network or work order requests, you may call UW-IT at 206-221-5000 or email help@uw.edu. Include your name, phone number, building, room number, outlet number, if available, and details about your concerns.

RULES FOR COMPUTING AND NETWORKING IN UW HOUSING
The UW provides you with a network connection for the purpose of facilitating student academic activity, whether or not such activity is directly related to course work. For questions around use, please consult the Appropriate Use of UW Resources page. Violation of these rules may result in the suspension of your network access and/or other disciplinary action.

WHERE TO GET HELP
You can get help with computing problems including operating system updates, anti-virus installation and updates, peer-to-peer software removal, and infected computers at the Odegaard Learning Commons. Personal computers connected to the UW network must be kept free of viruses, use firewalls and be patched with updated software. Current students can download virus scan software at no charge from UW's IT Connect. Compromised or infected computers will be denied network access.
COMPOSTING, RECYCLING AND TRASH

Composting, recycling and trash locations can be found in your area. Your RA/CA, as well as local signage, will direct you to this location.

There are three different waste streams available based on the type of product you are disposing.

Compost

After you put your compostable products in the appropriate receptacle, Cedar Grove, a local company, picks up our naturally biodegradable waste, decomposes it and recycles it into nutrient-rich soil. Less expensive than trash pickup, composting is an eco-friendly alternative to landfills.

Compostable materials include:
- Bones
- Food scraps
- Food-soiled paper
- Fruit rinds
- To-go cups, cutlery and containers from HFS food service areas

Recycling

Recycling eases pressure on the environment, offers a second life for recycled products and helps extend the bounty of our natural resources. Recyclable items include:
- Bottles and jars
- Metals
- Paper and cardboard that is free of food product

Trash

What’s left? Hopefully, not a lot. Items that aren’t compostable or recyclable can go in the trash containers or chutes.

Medical Waste Disposal

Federal, state and municipal regulations require that medical waste be disposed of in an approved container to keep residents and our staff safe. Medical waste cannot be disposed of in the trash. If you generate this type of waste, please provide your own medical waste disposal container. For disposal, contact the King County Hazardous Waste Hotline at 206-296-4692. Some pharmacies will dispose of your medical waste if you purchase the medical device from them; please check with a pharmacy for further information on their disposal program.
HOW TO SUBMIT A WORK ORDER

If you are in need of maintenance assistance, you must place a work order to alert the custodial and maintenance staff of the problem. You will not be charged for routine repairs. Work orders are completed as promptly as possible and are prioritized by the seriousness of the repair needed. Some repairs may not be made immediately.

Submit nonemergency work orders at FS Works.

Please be as detailed as possible so that staff can respond quickly to correct the issue. Contact your RA/CA or residence hall front desk if you need assistance.

If you have a question about a work order you have submitted, you can see the status of the work order at FS Works by clicking on the Search tab. You can also contact your RA/CA or RD.

Example of work orders:
- Running toilet
- Lightbulb out
- Clog in sink or shower

Please call the Facilities Services and Planning Office at 206-543-4017 to request work if you do not have a UW NetID or access to a computer.

Emergency Work Orders

HFS provides 24/7 response for emergency maintenance issues.

Contact the Facilities Services and Planning Office at 206-543-4017 or call the RA/CA on duty to report the problem immediately. Examples of emergency issues include overflowing toilets or power outages.

EXEMPTIONS TO WORK ORDER REQUESTS

For work orders concerning computing or HuskyTV, contact the Facilities Services and Planning Office at 206-543-4017.
HFS Facilities Services keeps the community centers clean and maintained. Our staff is made up of dedicated and tenured individuals who pride themselves on their service to our residents. Please do your part to keep areas clean and tidy.

**Apartment Inspections**

Inspections occur annually during winter quarter for apartments that have been occupied by the same resident for more than 12 months.

The purposes of these inspections are to:

- Maintain the integrity of our building facilities for the duration of their lifecycle
- Reduce the turnaround time between tenants in a single unit by being proactive about addressing maintenance issues
- Increase resident awareness of maintenance support in addressing facility concerns
- Increase professional staff awareness of potential health and safety concerns in the community

During the inspections, the RD for Stevens Court, or Program Assistant for Family Housing, will join a member of the Facilities Services staff to enter each apartment together.

Staff will do a visual inspection of the common spaces (i.e., living room, kitchen, laundry/storage and bathroom) to look for damages that need immediate repair, areas of preventative maintenance, and issues that may impact the health and safety of the residents.

Residents will be notified in advance by Residential Life of the inspection date and range of time staff may enter.

During the inspection, staff will note damages and issues that need follow-up in a method of their choice. A confirmation of entry will be left in each unit after the inspection.
The UW is situated in the Pacific Northwest, so we can at times be bothered by our neighborhood insects. If you happen to find a pest in your room, submit a work order, and we will address the situation immediately.

**Bedbugs**

Bedbugs are small wingless insects that feed solely upon the blood of warm-blooded animals including humans. Bedbugs and their relatives have evolved as nest parasites and have adapted well to living in the nests (homes) of people.

There has been a recent resurgence of bedbugs in the United States. Wherever large numbers of people congregate to sleep (i.e., university residence halls), there is always a chance people will bring bedbugs in with their belongings. We need your help keeping them away or treating bedbugs right away if you have unexplained bites or find them in your room or belongings.

**WHAT TO DO**

Report any insect bites immediately. Contact your RA/CA or RD. At this time, bedbugs are not known to carry diseases harmful to humans, but their bites are very irritating to most people, so it is supremely important for residents to quickly report all bites of unknown origin. A pest control technician will be scheduled to check your room as soon as possible.

Collect a sample bug if possible. Pick it up with tape, and put into a plastic bag or jar that can be sealed. Give it to the pest control technician when your room is inspected.

Do not treat your room. In many cases, the biting insect may be something other than a bedbug. If you treat the room, you may drive any bugs into hiding so that they cannot be found during the pest inspection. Leave the treatment to the pest control expert.

Do not move or stay in another room. You could be taking the bedbugs with you and spread the problem if you move to another room.

Follow instructions from your RA/CA or RD. If it is determined that you do have bedbugs, we will need your cooperation to ensure successful control for you, your family and neighbors!
TRANSPORTATION

U-PASS
The U-PASS program provides a flexible, low-cost array of transportation choices. Ride free on any Metro, Community Transit or Sound Transit bus or the Sounder commuter light rail. Learn more about the U-PASS.

Parking on Campus
Motor vehicles, including motorcycles, must be parked in designated parking areas and may require a permit. Residents of Stevens Court may obtain parking permits through UW Transportation Services. Blakeley Village and Laurel Village residents are eligible for one permit per apartment. The permit is included with the Family Housing agreement and is available at the Blakeley Village RLO. Residents of the Commodore Duchess and Radford Court may inquire about parking options at their respective leasing offices.

Any motor vehicle parked on patios, lawns or walkways will be subject to ticketing and impoundment. Health and safety codes strictly prohibit the parking or storing of a motor vehicle inside a room or on a walkway. For information on how to park on campus visit UW Transportation Services.

Bicycles
Bicycles serve as an excellent means of transportation to and around campus. Bicycle lanes and trails provide safe spaces for riding, and all city buses have easy-to-load bike racks for longer trips. Visit UW Transportation Services to learn about commuting by bicycle, including rules and laws about riding on and off campus.

Bicycles must not be left in hallways, exit-ways, ramps or on railings as they are a dangerous barrier to evacuation during a fire. Bicycles obstructing an evacuation path may be ticketed and impounded by the UWPD. Keep bicycles in bike rooms or locked to bike racks located outside each residence hall.

Bicycle theft is a common occurrence on college campuses. Register your bicycle with the UWPD. Kryptonite brand U-locks, along with helmets and other safety equipment, are available at a discount from Hall Health. To report vandalism or theft of a bicycle call the UWPD and inform a Residential Life staff member in your residence hall.

For bicycle repairs and assistance on campus, the ASUW Bike Shop is located in 103 Husky Union Building.
The UW contracts childcare services at Laurel Village and Radford Court. When a space becomes available, residents of Family Housing and students with UW childcare vouchers are given first priority. Please inquire at your earliest convenience since enrollment is limited.

For more information about UW childcare and UW childcare vouchers, visit the [UW Childcare Assistance Program](#) or contact the Student Parent Resource Center located in 180 Schmitz Hall at 206-543-1041.
Residents of Family Housing apartments may request a transfer within Family Housing. If you are requesting a transfer because a child will be living with you in the future, please update your student profile information to reflect this change and complete the transfer request for Blakeley Village and Laurel Village.

**Eligibility**
In order to be eligible for a transfer offer:
- You must have lived in your current apartments for at least six months; and,
- You must be eligible to live in the apartment you are requesting a transfer into; and,
- Your student profile must be up-to-date and all family documents submitted; and,
- You must be in good standing with the Residential Life Conduct and Compliance Office; and,
- Your housing account must be in good standing and paid in full.

**Submitting a Request**
You may request a transfer by providing information about your transfer preferences. You will only be offered a transfer into an apartment that meets the preferences you state.

**TRANSFER REQUEST STATUS**
Your position on the transfer waiting list is determined primarily by the date that your request is submitted and the following criteria:
- New applicants who are a Priority 1 status who do not yet live with HFS will be assigned before transfer requests are considered.
- Families that have had a change in family size and no longer qualify for the apartment they are currently living in are considered before families who still qualify for the apartment they are living in.

---

**The Transfer Process**
You will remain on the transfer waiting list until an apartment becomes available or you cancel your request.

HFS will contact you once an apartment becomes available.

If you accept a transfer, a nonrefundable $35 transfer charge will be posted to your housing account.

Your transfer will be scheduled for the date that the new apartment becomes available. If that date is less than two weeks from the date you accept the transfer, you may push your transfer date out two weeks from when you accept the assignment.

You will be given 72 hours to complete your transfer. You will have access to both your current and future apartments while you complete your move.

Please follow the cleaning guidelines and move-out procedures.

HFS will conduct inspections of your original apartment once you accept a transfer offer. The pre-vacate inspection will take place within a few days of accepting your offer, and the post-vacate inspection will take place the first business day after you complete your transfer.

Any additional damage or cleaning charges will be posted.

**Sublicensing**
Sublicensing is an option for students living in a Family Housing apartment who have lived in housing for at least six months and will be away from campus during summer quarter. Sublicensing may be allowed during an academic quarter other than summer only if the resident family will be gone for academic reasons with UW departmental verification. Through the sublicensing process another qualified family lives in the apartment temporarily.
If you are interested in the sublicense process, please review the following information and the Family Housing agreement carefully. Contact the Student Services Office if you have any questions.

Sublicenses will not be permitted without advance written approval from HFS.

Sublicense requests must be made at least 14 days in advance.

Sublicensing is only permitted for dates that closely match the academic calendar and for no less than a four-week period.

Sublicensing is not permitted during break periods such as Winter Break or Spring Break unless the adjoining quarter is also included.

Agreement holders are only eligible to sublicense if they are returning to live with HFS the following quarter.

Only married couples without children are allowed to sublicense an apartment in one-bedroom apartments in Stevens Court. Only students with one or more dependent children who will be living with them at least fifty percent of the sublicense term are allowed to sublicense an apartment in Blakeley Village or Laurel Village.

**TERMS OF SUBLICENSING—AGREEMENT HOLDER**

Your housing account must not have any outstanding past due charges at the time your request is made.

You are responsible for finding your own sublicensee. You may use our sublicense finder forum if you do not already have someone in mind.

You must make a formal request at least 14 days in advance by submitting the sublicense request form. The intended sublicensee must also fill out their portion of the form.

A charge of $15 per day will be charged for requests submitted less than 14 days in advance.

You will be required to meet with a Residential Life staff member, along with your intended sublicensee, before your request will be approved.

If your request is approved, you will be assessed a $50 sublicense charge. In addition to the sublicense charge, you may be assessed a $90 improper sublicense charge if you do not follow proper steps at any point in the process.

Any financial arrangement between you and your sublicensee must be made independent of HFS.

You will remain responsible for all terms of your agreement including making monthly payments and maintaining the condition of the apartment. You will be charged for any necessary repairs when you vacate, even if the damage was caused by your sublicensee.

You must be eligible for the area you will be sublicensing in.

**TERMS OF SUBLICENSING—SUBLICENSEE**

You must be eligible to live in the unit you want to sublicense.

You are responsible for connecting with a current agreement holder. You may use our sublicense finder forum if you do not already have someone in mind.

You must make a formal request at least 14 days in advance by submitting the sublicense request form. The intended sublicensee must also fill out their portion of the form.

A charge of $15 per day will be charged for requests submitted less than 14 days in advance.

You will be required to meet with a Residential Life staff member, along with the agreement holder, before your request will be approved.

Any financial arrangement between you and the agreement holder must be made independent of HFS.

You will be responsible for upholding the apartment community standards as outlined in Appendix A of the Family Housing agreement.
Sublicense Process

The agreement holder and sublicensee are responsible for finding one another. Our sublicense finder forum is available for those wishing to make connections with other parties.

HFS will review your request to ensure that your sublicensee is eligible.

HFS will confirm that your sublicense request has been received and reviewed, and you will be directed to meet with Residential Life staff. Your request will not be fully considered until this step is completed.

After you meet with Residential Life staff, HFS will notify both of you whether or not your request has been approved. If it is, your notification will include instructions about how and when you may start your sublicense.

Any questions about the sublicense process may be directed to the Student Services Office at 206-543-4059 or hfsinfo@uw.edu.
