**Totally It All Up…What Does It Mean?**

When you complete the Inventory, you’ll probably be tempted to add up your total score. DON’T! It really has no meaning. There is no such thing as a general quality of assertiveness. “What is assertive” must be answered in terms of the person and the situation. The Inventory is not a standardized psychological test; the studies required to thoroughly evaluate and approve a test have not been conducted. Thus, a “total score” approach is not appropriate. Analyzing Your Results “Your Perfect Right- A Guide to Assertive Living” suggests the following steps for analysis of your responses to the Assertiveness Inventory: Look at individual events in your life, involving particular people or groups, and consider your strengths and shortcomings accordingly.

Look at your responses to questions 1, 2, 4, 5, 6, 7, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 21, 22, 24, 25, 27, and 28. These questions are oriented toward nonassertive behavior. Do your answers to these items tell you that you are rarely speaking up for yourself? Or are there perhaps some specific situations which give you trouble?

Look at your responses to questions 3, 8, 13, 20, 23, 26, 29, 31, 32, and 33. These questions are oriented towards aggressive behavior. Do your answers to these questions suggest you are pushing others around more than you realized?
